- Node js (Basic usage for react projects)
- Git / GitHub
- 3d Web interface
- Artificial Intelligence
- Excel Proficiency
- Team LeaderShip
- Client Engagement
- Problem Solving

LANGUAGES

- English: Fluent
- Urdu: Fluent
- Arabic: Basic

SUMMARY

"I began my journey in web development in 2021, driven by a deep passion for technology. After a brief break, I returned to web development in September 2024 with renewed focus and determination. During this time, I completed a React training and mentorship program at Amoxt Solutions Inc., where I built projects under the guidance of industry professionals. Additionally, I gained part-time experience as a self-employed freelancer on Fiverr, offering data entry services. I now work around 60 hours a week, diligently building projects and enhancing my skills through Udemy courses. My commitment to hard work and continuous growth defines my approach, and I am eager to apply my passion for web development to impactful projects."

WORK EXPERIENCE

Self-employed / Fiverr   2/ 2021   3/2021

Freelance Data Entry (Part-time)

- Created and maintained a Fiverr profile to offer data entry services.
- Learned client communication and task management while exploring freelance opportunities.
- Focused on improving efficiency in organizing and processing data.

React Developer (Training /Mentorship Program)   09/ 2024   11/ 2024

Amoxt Sloutions Inc

- Successfully completed an extensive hands-on training program in React.js under the mentorship of experienced senior developers.
- Developed and deployed multiple React-based projects, ensuring the application of industry-standard coding practices and design principles.
- Acquired in-depth knowledge of modern JavaScript (ES6+), reusable React components, and advanced state management techniques.
- Collaborated closely with mentors and team members, enhancing communication skills and learning to implement feedback effectively.
